

The slide features a light gray background with large, stylized hexagonal shapes on the left and right sides. On the left, there is a large dark teal hexagon with a smaller, lighter teal hexagon nested inside its top-left corner. On the right, there is a large teal hexagon with a smaller, light green hexagon nested inside its top-left corner. The text 'Movie Ticket Booking System' is centered in a large, bold, black sans-serif font.

Movie Ticket Booking System

CLI-based Movie Ticket Booking System

Movie ticket booking across 4 theatres among 4 cities using Java & MySQL with JDBC integration

- Java component here encompasses all the concepts of Object Oriented Programming
- Basic MySQL queries to manage multiple databases

Tools Used

IntelliJ IDEA

Terminal/GitBash

GitHub

MySQL WorkBench
